

## WHAT WAS DONE AT CONFERENCE

Outline of Important Results From Great Gathering Held This Year in Victoria

Victoria, B.C., Sept. 2.—There have been thirty sessions during the present Methodist conference and many hours have been spent in committee rooms. All speak of the intense interest manifested by the delegates, and the spirit of good fellowship that prevailed from start to finish. All-day sessions took place at eleven p.m., eight committees having been heard during the evening. Some of the more important legislation of the general conference is as follows:

The formation of conference, district and conference committees, giving each conference greater and additional freedom in the expenditure of funds within its borders. Special freedom is given the private practice of medicine. Granting to the W.L.S.A. a share in the missionary giving of the Sunday schools.

Life annuity for superannuated ministers in case of permanent disability, with a rate of \$10 per year for each year they have been in the ministry.

New scale of assessment for raising superannuation fund, based on scale of percentage on salaries, and secondly by 2 1/2 per cent. on concessional income.

Establishment of a new college at Calgary. Establishment of a new department of finance and subsidizing a propaganda for systematic benevolence. A chief superintendent of the church, one superintendent to lead the work.

Granting the West China mission council the status of an annual conference for the purpose of appointing delegates from among missionaries as faithful to the general conference.

Provision made for the appointment by the board of education of a tripartite committee to consider and advise in the case of charges against professors and teachers in Methodist colleges.

Appointment of an associate editor of the Christian Guardian in the west of Canada to consider and advise in the case of charges against professors and teachers in Methodist colleges.

## MINE AMALGAMATION.

Merger of 13,000 Acres of Claims Pat Through.

Nelson, Sept. 2.—The largest and most important mining merger ever consummated in the Kootenays has been made public. The amalgamation of the whole of Teal Mountain is included in the properties consolidated, comprising the total assets of the Hill Mining and Smelting Company, limited, now owned by trustees of the debenture holders, and the assets of the Kootenay Development Syndicate, limited, which company has these properties under lease. The whole comprises forty mineral claims on about 13,000 acres of miles of land, in addition to the smelter, tramway, electric power lines and plant equipment. The names of the purchasers and the price is withheld for the present. The deal was consummated through Attorney Lennie and Wragge here.

An exceptionally strong group of Pacific Coast capitalists are interested in the deal.

## RUTHENIANS AND CATHOLIC CHURCH

Archbishop Langevin Issues Letter To Clergy Appealing For Assistance In Coping With Question

Winnipeg, Man., Sept. 2.—Archbishop Langevin of St. Boniface, has sent a circular letter to his clergy, secular and regular, throughout the diocese, in which he makes a special appeal for assistance in coping with the Ruthenian question.

The letter was written previous to the meeting held by the Ruthenians in North Winnipeg, in which they expressed their dissatisfaction with the present conditions and whose complaints are endorsed by Dr. Schweger, Austro-Hungarian consul.

His Grace intimates that he has given two private conferences to discuss the Ruthenian question, and he intends to take similar action with the clergy of the diocese.

There can be no question of titles, he says, and that the Ruthenians must give up their claims by turning their church property over to the church.

## A BEHRING SEA TRAGEDY TOLD

Trading Schooner Wrecked Had a Miraculous Escape—Secured Assistance of Natives

Nome, Alaska, Sept. 2.—With the arrival here of Hugh Mowatt, a young trader from Nelson Island, who brought the news of the wreck of the trading schooner Whangary, and the death of his partner, Thomas Thompson, another tragedy of Behring sea is being told by the natives.

The Whangary was wrecked on November 18, 1899, by striking a rock off the coast of Nulivik Island, but Thompson met his death three days previous to that by being struck by a boom about 200 miles distant when the vessel was holed and an effort was being made to put out a sea anchor during the prevalence of a violent storm.

The Whangary struck the rocky coast of Nulivik at midnight, and Mowatt and Thompson were on the shore next morning. He lived for three days on the island with the natives, eating entirely raw fish and seal oil. During all of this time he was being watched by the natives, who were very kind to him.

# THE "FRUIT-A-LIVE"

## Is On The Outside Of Every Box For All The World To See

Every user of "Fruit-a-Live" knows exactly what is being taken. The formula of this famous fruit medicine is printed plainly on the outside of every box. We have stated many times—and now state clearly—that "Fruit-a-Live" is made of the juices of apples, oranges, figs and prunes, with valuable heart and nerve tonics and antiseptics.

Science knows that fruit juice is healthful—but perhaps some do not understand why this is true. Fruit juice consists of about 90% water, 8% of sweet principle, and 1% of a bitter substance. It is the quantity of bitter principle in fruit that gives the fruit value as a medicine. An eminent physician of Ottawa, after years of experimenting, found a method of increasing the bitter principle in fruit juices, thus increasing the medicinal or curative qualities.

The juices are first extracted from ripe, ripe oranges, apples, figs and prunes. By a secret process, some of the sweet atoms are replaced by the bitter principle. Then tonics and antiseptics are added, and the whole made into tablets, now known far and wide as "Fruit-a-Lives."

"Fruit-a-Live" is the only medicine in the world that is made of fruit juices, and is one of the few remedies that have let their composition be known from their introduction to the public.

"Fruit-a-Live" is nature's elixir for the liver, bowels, kidneys and skin. In cases of obstinate Constipation, Liver Trouble, Indigestion, Backache, Rheumatism, Headaches and Impure Blood, this wonderful fruit medicine cures when everything else fails.

"Fruit-a-Live" is sold everywhere at 50c a box, 6 for \$3.00, or trial box, 75c, or will be sent, postpaid, on receipt of price by Fruit-a-Live Limited, Ottawa.

## IMPRESSION ALONG GRAND TRUNK PACIFIC

Enthusiastic About the New Line Between Edmonton and Winnipeg—Homebuilders Taken Up As Far West as Athabasca River.

Winnipeg, Sept. 2.—A resident of Winnipeg, who has just returned from a trip to the mountains over the route of the Grand Trunk Pacific, speaks in optimistic terms of the possibilities of the country traversed by the railway. He also speaks in warm terms of praise of the G.T.P. He stated that the road had been splendidly constructed, and that the express trains between Winnipeg and Edmonton run as smoothly as on any line in America—there not being a bump or a jolt for the entire distance, although the trains are running at a fast rate, the journey being accomplished in 24 hours. It is understood that the schedule is shortly to be cut to 21 hours. The traveler left Winnipeg on Saturday afternoon at 3 o'clock and before dark on Monday evening he was admiring the mountain scenery in the vicinity of the Yellowhead pass, and had spent one night at Edmonton on route. He contrasts the remarkable annihilation of time and distance with travel of 20 years ago.

Quite a number of prosperous looking towns are springing up along the railway, and a large number of them are being broken up, steam and gasoline plows, horses and oxen being at work everywhere turning up the virgin soil of the prairie.

Speaking of harvesting operations, the traveler stated that the work is more advanced in Manitoba and the extreme eastern part of Saskatchewan than further west. In the western part of Manitoba the threshers are busy and the cutting is nearly finished. The crops are a record and are good and there will be a lot of grain for shipment. Much of the grain, while not yielding heavy, will give a plump, bright berry, and will compensate to a considerable extent for the shortage in quantity.

This assertion is made by the farmers and by impartial agents who have visited the farming districts. The grain crops, wheat, oats and barley, for 1910, were very good, and the harvest could not be better. There is a fine stand of straw with well developed heads everywhere.

The harvesting has been delayed by wet weather, which has prevailed throughout the North Saskatchewan valley about past three or four weeks. The delay is one of the most serious setbacks of the west. It is in old settlement and the land appears to be in a high state of cultivation. There is considerable farm settlement for 50 or 75 miles west of Edmonton on the other side of the G.T.P., and many of the farmers are of the opinion that the land is good for many miles north and south. The country is of a hilly nature and has been almost entirely denuded of its original forest and is now covered with a growth of poplar and other indigenous trees and shrubbery, which are well cleared off. After the loan sold, it appears a pure clay belt has been extended to the westward with an occasional tract of true prairie land.

Homesteads are being taken up in the clay belt as far up as the Athabasca river. Crops this year on the newly-broken belt, have done well. Oats five feet and a half, high with heads nine inches long, wheat four feet and timothy equally high were common. The potatoes grown are equal to anything that can be produced in a Winnipeg market garden, both in respect to size and quality. Farmers who understand the nature of clay soils say that after being cultivated for a couple of years they will produce cereals and grasses equal to the loam soils. Timothy grass seems to have found a natural habitat in these clay tracts.

## End of Street.

The end of the G.T.P. street is now at Edmonton, 112 miles west of Winnipeg. The road is being pushed on in advance to secure desirable locations close to the railway. This summer eighty homesteads were taken up in the vicinity of Edmonton. A settler from the north country, who came to Edmonton by pack trail, gave the information that there are large areas of good farming and ranching land for forty miles north and that the farms now located there are well pleased from a trip to the mountains over the line. Grass and grain and pine grow most luxuriantly and oats, the main crop grown at present, have done well.

## Trail to North.

Way between the cities, instead of railway north to the Athabasca river and to the Grande Prairie, surveys for a trail to the north have been in progress. A petition has been sent to Hon. Frank Oliver, minister of the interior, asking that Edmonton be made the rail as far as good as those taken in the west, and that the trail be made five miles west. Should the last-named place be decided on for the railway end of the trail, the Edmonton people will build a "cut-off" in order to bring the traffic directly into the heart and save the roundabout route via Medicine Lodge.

The country west of Edmonton, on either side of the G.T.P., is dotted with lakes of various sizes, which are fringed with white fish, pickerel, lake trout and other species found in Western Canadian waters. The white fish are as good as those now taken in the lake of Manitoba, and settlers can have two chances for twenty dollars. On account of the cheapness of these fish, fish is included daily in the dinner menu of every stopping place and restaurant along the line, and the fishermen who deal directly with the consumers do a thriving and profitable business. At the end of the trail the traveler is in the heart of the country, every stream, large and small, being filled with the gamey scud which rises readily to almost any kind of bait.

Game is plentiful. The country round about is also filled with game of all sorts from the true prairie chicken to the muskrat, and this will undoubtedly be the next point of big game hunters, now that it is so readily accessible by the construction of the G.T.P.

## AROUND THE CITY

## LOCALS.

There will be a communion service in the First Presbyterian church on Sunday morning.

Nimajo Lodge, No. 47 I.O.O.F., will hold regular session on Monday evening. Business of importance demands a good attendance of members.

The Salvation Army have made arrangements to bring out from England a bandmaster and two bandmen for their band here. They are also securing three other members to augment their already large organization.

The Women's Bible class will be resumed tomorrow at four o'clock at their rooms in the Y. W. C. A. on Third Street. Mrs. C. J. Gillespie will be the teacher. A circular invitation is extended to all to be present.

The marriage took place at McDougall Methodist church parsonage on Thursday evening, of Andrew E. Campbell and Margaret Dombrowsky, both of Winnipeg. The ceremony was performed by Rev. J. E. Hughes.

Two marriages were performed by Dr. McQueen at the First Presbyterian manse this week. On Friday, Sept. 2nd, Michael T. Morris and Anna DeLaurens were united in matrimony and on August 31st, Geo. W. Zimmerman and Margaret A. Duncan were married.

The Stationary Engineers Association of the city will hold an open meeting on Thursday evening, September 8th, in the Mechanics' Hall, when an interesting program will be presented, including musical numbers by some of the best local talent. Ladies are cordially invited. Doors open at 7.30, entertainment at eight sharp.

The pleasant Sunday afternoon meeting at the Orpheum Theatre, in connection with the Temperance and Moral Reform League, at four o'clock, will be addressed by Mr. H. B. Baidwin, just returned from Southern Alberta, where he was successful in securing an application for an hotel of \$10,000 value at New Norway. His subject will be the "Legislator's Place in Traffic." The chair will be taken by the Rev. T. K. Knudsen. There will be special music and all seats are free.

## PERSONAL.

Tom Hooker, of the Alberta hotel, was a visitor in Calgary this week. Mrs. Elvira Wilson, of Amherst, N.S., is visiting her parents, Mr. and Mrs. D. J. Campbell, here. Mrs. W. W. Chady, who is looking after the house of trade exhibition in the south, has returned from Lethbridge to Calgary.

David Williams, of Collingwood, Ont., editor of the Bulletin and the Saturday News of this city, is visiting in Edmonton.

Miss McMillan, of the General hospital, is visiting here. Her husband has been called "rueful" checks up to the amount of \$2,000, that had been sent by Grant Smith & Company, contractors of Spokane, who are building the coal track for the Great Northern from Java to Summit.

## THE WEATHER.

The weather over the Pacific Provinces has cleared and become more settled and temperatures have risen somewhat.

Forecast—Montreal fair, cold, very dry, a little higher temperature; St. John's, a little shivery, but mostly fair; Saskatchewan and Alberta, partly fair, a few local showers.

## AHEAD AT ALBERTA COLLEGE.

Classes for training in the technical of interior art or drawing and painting classes have been arranged by the management of Alberta College to be added to the subjects already taught. These classes will be conducted by Professor W. S. Duncan, formerly headmaster of the Park and Baywater Government School of Art and Science, London, England. The principal of the teaching will be to train pupils to portray artfully as possible what they see. It is not a flat drawing or picture, or a natural or manufactured object, or group of objects depicting its form in outline, its relief by light and shade and its color. To learn with, day classes will be held on Tuesday and Thursday from 2 to 4 p.m. Evening classes for instruction in drawing necessary to machine construction will be held on Mondays, Wednesdays and Fridays from 7 to 9.

## THEY WANT A CHANGE.

Although the municipal elections are over three months distant, the "time-for-a-change" cry was raised in no unobtrusive manner at a meeting of the Municipal Improvement League in the Oddfellows' hall in Sherwood boulevard last night. The meeting was not largely attended, but a few of the members were present. In the presence of the protest, registered by members and in the largeness of the policy outlined as a platform to which allegiance might be pledged in the next civic elections. The meeting decided that the present council as a whole was one which had been negligent of the best interests of the city and determined to effect, if possible, a clean sweep at the next elections. To this end it was decided that a state club be prepared and a special meeting will be called to consider the merits of possible candidates for every office, such as the union of the city council has moved in reducing the city's expenditure by means of a committee of four was appointed to bring the matter to the attention of the city council's general department.
